Consultation on English Language Teaching (ELT) Council Regulation

Feedback from : DOS

OPINION

Following the consultation meetings, I would like to put forward a suggestion that MATEFL, or an association of teachers, be given a chair on the council. MATEFL is the most important regular provider of CPD sessions for the EFL industry and also has a membership comprising a large percentage of active EFL teachers on the island. Allowing a representative of MATEFL a place at the table will both recognise the association's service to the industry as well as giving representation to an unrepresented but very important part of the industry.
