Consultation on English Language Teaching (ELT) Council Regulation

Display name: LC-MEDE-ELT-02

OPINION

As a Maltese citizen I am extremely disappointed by the new levels of financial burden which teachers will have to face. I have worked for nearly twenty years in this industry in different European countries and I have never seen such unfair treatment of business professionals. Would I need the same license as an IT programmer or freelance translator?

... under the new regulations I cannot teach more than two students as a freelancer. I don't quite understand the logic behind this as I am either qualified to teach groups or not.
