Executive Summary

Introduction and overview

1. A brief introduction about the subject.

The main aim of the proposed regulations is to enhance safety at sea and to prevent marine pollution through the uniform application of the relevant international instruments relating to marine equipment to be placed on board EU ships, and to ensure the free movement of such equipment within the European Union.

The proposed regulations continue to ensure that equipment which complies with the safety standards laid down in the applicable international instruments, including the relevant testing standards, can circulate unimpeded within the internal market and be placed on board ships flying the flag of any Member State
