

## **Mind D Gap: Together we can make a difference (Consultation)**

*Għaqda Patrijotti Maltin*

We as an organization do not agree with the policy of Integration. It has not been explained or shown in neither Political parties electoral manifests, thus the present legislation, has not explained the true meaning of integration. In fact we have started a petition against integration. We have asked the general public if they know what integration means. To our dismay of over 10,000 signatures up to now, only a handful knew the meaning of Integration. So we wish that this question be put publicly to the general public and be explained in a transparent manner.
